MS4 Permit Requirements and Meetings for June:

It was a quiet month with no meetings. Kristie is finalizing the York County MS4's Annual Report. York was the first town to have all required items to Kristie, including the signed MS4 Annual Report Certificate. The report is due to MEDEP by September 15, 2014.

MS4 MINIMUM CONTROL MEASURES:

Public Education & Outreach on Stormwater Impacts:

In a coordinated effort between Public Works and Community Development, 24 watershed signs were made. The goal is to raise public awareness that we all live in a watershed – not just properties that abut a river, stream or pond. The hope is that it will aid in future public education and outreach by motivating citizens to use best management practices on their own properties. This is in line with the York County MS4 Group's Stormwater Program Management Plan, Minimum Control Measure 1.

Dan Kingsbury of Public Works made all the signs. Brett Horr and Leslie Hinz of Community Development did the mapping and field work to determine the number of sign needed and placement locations. The watershed signs were fund by the Town's MS4 account. Look for the new signs to start showing up around Town in mid-September.

Public Involvement & Participation:

Illicit Discharge Detection & Elimination:

The Board voted 5-0 to move the Ordinance forward to Referendum for a vote on November 4, 2014.

Construction Site Stormwater Runoff Control:

There are currently no projects with soil disturbance greater than 1 acre.

Post-Construction Stormwater Management (New and Redevelopment):

The Board voted 5-0 to move the Ordinance forward to Referendum for a vote on November 4, 2014.

Pollution Prevention/Good Housekeeping for Municipal Operations:

Training/Conferences Attended in August:

Nothing for August.

Respectfully submitted,

Leslie Hinz, Stormwater Manager
