

REQUEST FOR WAIVER FOR SEWER HOOKUP

Date:

Applicant's Name:

Address:

Property Location:

Map/Lot:

At your request an onsite inspection was conducted on your property on: _____ to determine whether or not a sewer waiver would be granted to allow you to refrain from connecting to public sewer for one (1) year. At that onsite it was determined there was no visible malfunction of your subsurface wastewater disposal system, therefore a one year waiver is granted from the date of your site evaluation/ soil scientist evaluation date.

If you wish an extension of the waiver beyond one year it will only be considered if you are not within a Shoreland zone. For properties outside of the Shoreland zone you will need to hire a site evaluator to make a physical inspection of your system, including excavating a small portion of the disposal area to determine the actual condition of your system. On the recommendation of the site evaluator a waiver may be issued for up to five years. If at the end of one year you wish an extension a site evaluator must revisit the system and re-inspect it and present his findings in writing to the Code Enforcement Office.

Based on our review of the site evaluation that you included, we have granted a waiver for one (1) year, to expire_____.

If you have any questions or concerns, please feel free to contact us.
