

## **Meeting Minutes - York Conservation Commission**

**Date: November 20, 2012**

**Attending: Dave Tibbetts, Ana Gray, Bob Tilley, Jeff Normandin**

- 1- It is with great regret that the CC has accepted the resignation of Dave Tibbetts, chairman of the CC for 12 years, who has chosen to leave for personal reasons. This was Dave's last meeting with the CC but he may be available to consult with us from time to time in the future. His knowledge and experience will be missed.
- 2- We reviewed with Dave his core contacts both state and local, other York commissions tied to the CC, and his recommendations for the CC going forward. The PB interface and ordinance revisions should remain top priority. Dave handed over his CC materials including the Septic System Brochure file and the Beginning with Habitat maps.
- 3- Jeff discussed his recent project with the Town of South Berwick Conservation Commission. He put together a map system that combined multiple variables to identify high priority areas.
- 4- The new CC page on the Town website will be ready for use in December.
- 5- The next meeting will be on 12/11/12. The agenda will include selecting new CC officers.
