

# New Construction, 1981-2003

## York Comprehensive Plan Inventory and Analysis Existing Land Use Chapter January 5, 2004

This map was created using information from the Town of York Assessor's Office. The parcel outlines, date of construction, and the land use classifications were taken on November 06, 2003 from the database used by the Assessor's office to determine the level of taxation for each parcel. It is acknowledged that there are errors with the data and some buildings may not be represented here. The dates chosen and displayed are to represent the types of construction built between the last rewrites of the Comprehensive Plan. Only structures with 700 square feet or more of floor area were included in this analysis.

**Legend**

Non-Residential Construction

- △ Built Between 1981 & 1999
- ) Built between 2000 & 2003

Residential Construction

- ( Built Between 1981 & 1999
- # Built Between 2000 & 2003

1 Inch equals 1/2 mile
