1. Discussion with Maine Department of Transportation Regarding Possible Speed Limit Reduction on Route 1

State Traffic Engineer for the State of Maine Steve Landry came to this meeting to discuss with the Board of Selectmen the process for a possible speed limit change on Route One here in York. Mr. Landry explained that there is no difference in process to lower/increase the speed limit on a State road. After a formal request to review the speed limit has been received by the State, they will conduct an engineering study that involves 9 standard criteria. The State then will determine and post what they feel to be the proper speed limit for the studied area.
