RE: York Police Department - New Public safety Building & Connector Road

Dear Sir:

We are currently working on design and permitting for a new police department building and connector road on land owned by the town in York, Maine. In order to fulfill the requirement of our state and local permit applications, we would like to request that you search your database to determine whether any historic or archaeological resources are present within the project area. We have attached a site location map, a property outline from the York GIS database, and a preliminary layout showing the location of the road and new building on the property.

We would be most grateful if you could review the attached information and issue a letter of findings for our use in permitting this project. Please do not hesitate to contact me if you have any questions, or require any additional information to support this request.

Sincerely,
SMRT

Andrew D. Johnston, PE LEED AP, CEng, CEnv, MCIWEM

cc. DRL, File 06122-10/15.1

Based on the information submitted, I have concluded that there will be no historic properties affected by the proposed undertaking, as defined by Section 106 of the National Historic Preservation Act. Consequently, pursuant to 36 CFR 800.4(d)(1), no further Section 106 consultation is required unless additional resources are discovered during project implementation pursuant to 36 CFR 800.13.

Kirk F. Mohney,
Deputy State Historic Preservation Officer
Maine Historic Preservation Commission
